Dear [Redacted]

STAT

The Historian's Office, ERDA, is currently preparing Volume III of the official history of the Atomic Energy Commission during the Eisenhower Administration. We have recently completed research at The Dwight D. Eisenhower Library in Abilene, Kansas, where we found materials relating to the U. S. atomic energy program which either originated with your agency or were transmitted to your agency by the White House. Our files already contain the principal record of CIA interest relating to AEC programs during the 1950's, but we would like to supplement our holdings with the materials from the Presidential papers. The Eisenhower Library has received, of course, security certifications from us, but requests that your office concur in our access to CIA-originated material before they will send us copies of historical documents. We would appreciate your assistance in our project.

Please direct your letter to Dr. George Curtis, Supervisory Archivist, The Dwight D. Eisenhower Library, Abilene, Kansas 67410.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Jack M. Holl", is written over a horizontal line.

Jack M. Holl
Acting Chief Historian
